

PUBLIC HEALTH

R E P O R T S

Public Health Reports (ISSN 0033-3549) is the journal of the U.S. Public Health Service (PHS) published bi-monthly in collaboration with the Association of Schools of Public Health (ASPH) by Oxford University Press, 2001 Evans Rd., Cary NC 27513-2009. All scientific contributions and selected feature articles are peer reviewed. Opinions expressed are the authors' and do not reflect the views of *Public Health Reports*, PHS, or ASPH. Trade names are used for identification only and do not represent an endorsement by PHS or ASPH.

Public Health Reports (0033-3549) is published bi-monthly by Oxford University Press, 2001 Evans Rd., Cary NC 27513-2009. Periodicals Postage Paid at Boston MA 02205-9998 and additional mailing offices. Postmaster: Send address changes to *Public Health Reports*, Journals Customer Service Department, Oxford University Press, 2001 Evans Rd., Cary NC 27513-2009.

Subscription, Permission, and Copyright Information

Subscription is on a yearly basis. The annual rates are US\$30 (£25 in UK and Europe) for individuals; US\$40 (£30 in UK and Europe) for institutions. Single issues are available for US\$6.25 (£5.25 in UK and Europe) for individuals and US\$8.50 (£6.25 in UK and Europe) for institutions. All prices include postage. Individual rates are only applicable when a subscription is for individual use and are not available if delivery is made to a corporate address. All subscriptions, single issue and back issue orders, changes of address, and claims for missing issues should be sent to: NORTH AMERICA: Oxford University Press, Journals Customer Service, 2001 Evans Rd, Cary NC 27513-2009, USA; tel. toll-free in the USA and Canada 800-852-7323 or 919-677-0977; fax 919-677-1714; e-mail <jnorders@oup-usa.org>. ELSEWHERE: Oxford University Press, Journals Customer Service, Great Clarendon St., Oxford OX2 6DP, UK; tel. +44 1865 267907; fax +44 1865 267485; e-mail <jn.orders@oup.co.uk>.

Advertising: PRC Associates, The Annexe, Fitznells Manor, Chessington Rd, Ewell, Surrey KT17 1TF UK; tel. +44 181 787-7262; fax +44 181-786-7262; e-mail <mail@prccsoc.co.uk>.

Requests for permissions, reprints, and photocopies: All rights reserved; no part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without either prior written permission of the publisher (Oxford University Press, Journals Special Sales, Great Clarendon St., Oxford OX2 6DP, UK; tel. +44 1865 267561; fax +44 1865 267985) or a license permitting restricted copying issued in the USA by the Copyright Clearance Center, 222 Rosewood Dr., Danvers MA 01923 (fax 508-750-4744) or in the UK by the Copyright Licensing Agency Ltd., 90 Tottenham Court Rd., London W1P 9HE. Reprints of individual articles are available only from the authors.

It is a condition of publication in the journal that authors assign copyright to the Association of Schools of Public Health (ASPH). This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. Although assigning copyright, authors may use their own material in other publications provided that the journal is acknowledged as the original place of publication and Oxford University Press is notified in writing and in advance.

Material published in this journal may be used, modified, reproduced, and distributed by the US Government for Government purposes.

Public Health Reports is printed on acid-free paper that meets the minimum requirements of ANSI Standard Z39.48-1984 (Permanence of Paper).

Oxford University Press is a department of the University of Oxford. It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide.

Alcohol-Related Injury Surveillance and Prevention Program

GEORGE W. WAGNER, MD MPH

A collaborative approach pays off

Welfare Reform

ELLEN LAWTON, JD

Health care access post-"reform": a Massachusetts case study

Writing for *Public Health Reports*

We welcome contributions that help us meet the information needs of public health professionals by describing important scientific and programmatic developments, new technologies, relevant policy issues, and current scientific debates.

In general, the journal conforms to *Uniform Requirements for Manuscripts Submitted to Biomedical Journals* (Public Health Rep 1997;112:253-63), available on-line at www.acponline.org/journals/resource/unifreqr.htm.

Submit manuscripts to: Public Health Reports, JFK Federal Bldg., Rm. 1855, Boston MA 02203; <phr@hrsa.gov>.

Contributions and Their Length

Letters to the Editor. We strongly encourage you to submit letters; brevity is a virtue.

News and Notes: These are brief news items and announcements, used and rewritten at the discretion of the editors. *500-word maximum.*

Feature articles: Features, often solicited, present the current status of a subject area and implications for policy, practice, or future research. *4000-word maximum with a 150-word unstructured synopsis.* We urge you to send an initial query letter describing your proposed article, its relevance to our readers, and why you are the appropriate author.

Research articles: We seek to publish research that is fully developed and original. To avoid redundant publishing, we do not accept preliminary reports or reports of studies that are only incrementally different from previously published research. *2500-word maximum, including a structured synopsis (Objectives, Methods, Results, Conclusions) of up to 250 words.*

Practice articles: We publish articles describing innovative public health programs and initiatives, their current status, and documented outcomes. *2500-word maximum with a 150-word unstructured synopsis.*

Viewpoints and Commentaries: These are short opinion pieces, often solicited, addressing contemporary public health issues. *Commentaries* are written in response to *Feature, Practice, or Research* articles.

Departments: *Overseas Observer, Public Health and the Law, Information Technology, Public Health Chronicles, Book and Film Reviews.* We welcome letters of inquiry proposing article ideas. *2500-word maximum.*

Authorship

Who is an author? Not a trivial question, so please refer to the *Uniform Requirements*. We need to have the signature of each author before we can publish an article or letter.

Conflicts of Interest

Full disclosure and avoiding the appearance of a conflict are our guiding principles. If any financial influence or other conflict of interest *might* have biased your work, you are obliged to disclose it to us—even if you are confident that no bias intervened. Please let us decide what should be disclosed to our readers. Similarly, you must disclose any similar or related work submitted or published elsewhere.

Cover Letter

When submitting your manuscript, help us by writing a thoughtful letter explaining why it belongs in *PHR*. We also need information on authorship and any conflicts of interest; a statement that the material has not been published nor is being considered for publication elsewhere; and references to closely related articles (copies should be enclosed). Please submit three copies of the manuscript, tables, and figures. Text should be double-spaced.

Acknowledgment of Receipt

We acknowledge each submission when it arrives.

Peer Review

After an initial reading by our editors, we select promising contributions for peer review; these are sent to two or more external reviewers.

The Manuscript

Here's what your manuscript should look like:

Title Page. (a) title (short and descriptive); (b) full names of all authors, including their graduate degrees; (c) all authors' institutional affiliations and job titles during the course of the research (and current affiliations and titles if different); (d) name, street address, telephone number, and fax number and e-mail address of corresponding author; (e) word count of the text (inclusive of references) and the number of charts/figures.

Synopsis: The abstract is your work's face to the world, as published in various medical indexes; a good abstract promotes readership. Synopses of *Feature* and *Practice* articles should be a maximum of 150 words without abbreviations, symbols, or references to tables or graphs. Structured synopses of *Research* articles (*250-word maximum*) should contain four parts labeled *Objectives, Methods, Results, and Conclusions*. Below the abstract provide up to 10 key words (use Medical Subject Headings from *Index Medicus*).

Text. In writing for *PHR*, keep in mind that public health is an extremely broad field and most readers will be in parts of the field other than your own. Your introduction or lead is particularly important. Please define terms that are not universally understood and avoid the use of jargon.

Research articles should be divided into four sections: *Introduction, Methods, Results, Discussion*. In the *Methods* section, use active, not passive, voice and tell readers "who, what, when, where, and why." Provide a full explanation in the *Methods* section of how you arrived at each finding reported in the *Results* section.

References. Please consult the *Uniform Requirements* and recent issues of the journal. Citations of personal conversations or unpublished material should appear in the text. *PHR* does not use substantive footnotes.

Copyright

Authors assign copyright to the Association of Schools of Public Health. Authors may use their own material in other publications provided *PHR* is acknowledged as the original place of publication and Oxford University Press is notified in writing and in advance.

Fruit Bearing Disease

Over the past several years, the raspberry industry in the United States has become increasingly important. John Snow and his colleagues have been among the Florida epidemiologists who have applied classic epidemiology to confirm raspberries as the vehicle of transmission in a 1996 cyclospora outbreak. (See article on p. 427)
